

Hints and Tips- Tug of War Strips

(Compare: same as, greater than, less than)

Two versions available- words or pictures

If students have no experience with this type of activity- it may be useful to practice as a class first.

Practice with different animals equivalents.

For example, How many bobcats to equal the force of one deer?

Then work toward utilizing a variety of animals on each team.

If bear was on a team by himself and deer wanted to start a team who else could join to create an equal team? What about a winning team?
