Description & Documents

The Edsal UR245P-BLK Maxi-Rack is a standing five-shelf unit with a steel rack and shelves made of particle board. This unit has riveted beams and riveted braces that lock into corner post rivet holes for structural security. The corner post rivet holes are punched at 1-1/2" intervals for precise installation of shelves at desired height. The steel rack has a black powder-coated finish to resist chipping and corrosion. This shelving unit can be assembled vertically like a traditional shelving unit, measuring 48" W x 72" H x 24"D. It can also be assembled horizontally as a workbench, measuring 96" W x 36" H x 24" D. This shelf unit has a rivet lock design for boltless assembly. Assembly instructions are included. A rubber mallet (sold separately) is recommended for assembly.

Features

- Standing five-shelf unit with a steel rack and shelves made of particle board
